

### **Claire Connor's Biography**

I have recently joined the Governor Board as a Parent Governor, with two children attending Markeaton School I wanted to contribute further to the community and school.

I am committed to supporting Markeaton School to continue to provide its pupils with a positive and invaluable experience in their education and being part of the Markeaton community.

After qualifying as a social worker at Derby University in 2005, I have worked in the voluntary sector in the field of child protection and am now working in child and adolescent mental health. I hope to bring these skills and experience to the board as the school continues to go from strength to strength.
