

Harsha Ramesh's Biography

I have been a Co-opted Governor at Markeaton Primary School since April 2021, and it has been one of the most rewarding experiences of my life. Even from an early age, I have always had an interest in STEM (Science, Technology, Engineering and Mathematics) subjects and it is this interest that drove me to pursue a career in Engineering. After obtaining my post-graduate qualifications in Mechanical Engineering, I joined a company based in Derby that develops cutting edge technologies that deliver solutions to meet our planet's power needs. In my spare time I enjoy hikes in the peak district, playing badminton and watching action/comedy movies at the cinema. In my role as Governor, I hope to use my experience to create an environment/curriculum within the school that would help better prepare the children for today's professional world. I am also committed to ensuring transparency and clear communications from the school to the parents.
