

Matt Ball's Biography

I joined the Governing Board as a Co-Opted Governor in November 2019 having developed a desire to assist in the education system after my daughter started school in the September. I live in Allestree with my wife and two daughters aged seven and three. I serve on the Resource Committee.

As a Civil Engineer, I have worked in the construction industry for 18 years, working all over the UK and in New Zealand. This has allowed me to develop interpersonal skills, project, time and financial management, as well as given me an understanding of different cultures and communities.

I now manage a number of construction sites for an East Midlands based contractor and look to bring my professional and personal skills and experiences to Markeaton Primary. I would like to help in achieving an 'outstanding' rating for the school by working with the school's Senior Leadership Team and Governing Board to provide the best for the students of Markeaton.
