

## Train role-play

Allow children to select resources to set up a train and station. Encourage key features such as tickets, station signs, ticket office, maps, timetables as well as the physical set up of a train with funnel, wheels, chairs, and driver's controls etc.

## Small world train stories

Combining train tracks and small world resources

An alien has landed and wants to take a tour of all of your favourite places – where will you take him? What will he see?

Following a flood, the dinosaur babies are stuck on one side a river, how will they get back to their mummy? Crossing the sinking stepping stones? A ride on a turtle's back? Hurry to help them before more rain falls and the river widens.

For more story ideas see Toy Trains 4U on YouTube

Let's film your story for others to enjoy!

### Child led train activities

Creating tracks  
from playdough  
and chalk for your  
train to ride on

Add blocks  
to make a  
station

Use chalk to add  
detail such as  
station names
