

Hi Year 4,

Sorry about the White Rose maths not working, our subscription has run out – oops! So, we've got some different maths for you to do!

If you follow this link...

<https://www.thenational.academy/online-classroom/year-4/maths#subjects>

You will be met with this page:

You will be led through 10 lessons on Area and Perimeter with a teacher called Mr Critchlow. Don't worry you don't have to do them all this week! One lesson per day is fine and the rest you can do the week after half term (or during half term if you're super keen). Or you can break the lessons down and work on one section of a lesson if you need more practice.

When you click on lesson one there will be a video and instructions on how to access it all. All you will need is a pencil, a ruler and some paper!

Each lesson will start with a quiz, a video to help you through the lesson, an activity to do and a finishing quiz.

We hope this works for you and you enjoy learning with someone new! We can't wait to be teaching you all again!

Miss Hughes and Mrs Clayton X
