

Relationships, Health and Sex Education Policy

Last reviewed: Sept 2023

Next review date: Sept 2024

Introduction

This policy has been written in accordance with the statutory guidance from the Department for Education issued under Section 80A of the Education Act 2002 and section 403 of the Education Act 1996. This policy contains information on how our school will meet its legal duties, with which schools must comply, when teaching Relationships Education and Health Education.

The Relationships Education and Health Education (England) Regulations 2019, make Relationships Education compulsory for all pupils receiving primary education. They also make Health Education compulsory in all schools except independent schools. Personal, Social, Health and Economic Education (PSHE) continues to be compulsory in independent schools.

For the purpose of this policy, “**relationships and sex education**” is defined as teaching pupils about healthy, respectful relationships, focusing on family and friendships, in all contexts, including online.

For the purpose of this policy, “**health education**” is defined as teaching pupils about physical health and mental wellbeing, focusing on recognising the link between the two and being able to make healthy lifestyle choices.

Development of the Policy

This policy has been developed by working in Partnership with schools in Derby City (See appendix 1 for list). A core focus of this partnership was seeking and gaining the views of local religious and community groups, ensuring representation of the protected characteristics of the Equality Act 2010.

Consultation with parents

The school understands the important role parents play in enhancing their children’s understanding of relationships and health. Similarly, we also understand how important parents’ views are in shaping the curriculum.

The school works closely with parents by establishing open communication – all parents are consulted in the development and delivery of the curriculum, as outlined in appendix 2 of this policy.

Parents are provided with the following information:

- The content of the relationships and health curriculum
- The delivery of the relationships and health curriculum, including what is taught in each year group
- The legalities surrounding withdrawing their child from the subjects
- The resources that will be used to support the curriculum

The school aims to build positive relationships with parents by inviting them into school to discuss what will be taught, address any concerns and help parents in managing conversations with their children on the issues covered by the curriculum.

Parents will be informed annually through the school website and through termly year group letters about the content of the Relationships and Health Education taught in each year group. Parents will be invited to discuss the content with the class teacher. In addition, parents will be consulted in the review of the curriculum and this policy, and are encouraged to provide their views at any time either verbally or written.

Curriculum Content

Relationships and health education focuses on giving pupils the knowledge they need to make informed decisions about their wellbeing, health and relationships, and to build their self-efficacy. Health education focuses on equipping pupils with the knowledge they need to make good decisions about their own health and wellbeing.

We understand our responsibility to deliver a high-quality, age-appropriate relationship and health curriculum for all our pupils. This policy sets out the framework for our relationships and health curriculum, providing clarity on how it is informed, organised and delivered.

Relationships Education

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to

- Families and people who care about me
- Caring friendships
- Respectful relationships
- Online relationships
- Being safe

See table below for the content laid out in the DfE Guidance:

Families	<ul style="list-style-type: none"> • That families are important for children growing up because they can give love, security and stability • The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives • That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care • That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up • That marriage and civil partnership represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong • How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed
Caring Relationships	<ul style="list-style-type: none"> • How important friendships are in making us feel happy and secure, and how people choose and make friends • The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties • That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded • That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right • How to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed
Respectful Relationships	<ul style="list-style-type: none"> • The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs • Practical steps they can take in a range of different contexts to improve or support respectful relationships • The conventions of courtesy and manners • The importance of self-respect and how this links to their own happiness • That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority • About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help • What a stereotype is, and how stereotypes can be unfair, negative or destructive • The importance of permission-seeking and giving in relationships with friends, peers and adults

Online relationships	<ul style="list-style-type: none"> • That people sometimes behave differently online, including by pretending to be someone they are not • That the same principles apply to online relationships as to face-to face relationships, including the importance of respect for others online including when we are anonymous • The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them • How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met • How information and data is shared and used online
Being safe	<ul style="list-style-type: none"> • What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context) • About the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe • That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact • How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know • How to recognise and report feelings of being unsafe or feeling bad about any adult • How to ask for advice or help for themselves or others, and to keep trying until they are heard • How to report concerns or abuse, and the vocabulary and confidence needed to do so • Where to get advice e.g. family, school and/or other sources

Health Education

The aim of teaching pupils about physical health and mental wellbeing is to give them the information that they need to make good decisions about their own health and wellbeing. It should enable them to recognise what is normal and what is an issue in themselves and others and, when issues arise, know how to seek support as early as possible from appropriate sources.

- Mental wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy eating
- Drugs, alcohol and tobacco
- Health and prevention
- Basic first aid
- Changing adolescent body

See table below for the content laid out in the DfE Guidance:

<p>Mental wellbeing</p>	<ul style="list-style-type: none"> • Mental wellbeing is a normal part of daily life, in the same way as physical health. • There is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations. • How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others’ feelings. • How to judge whether what they are feeling and how they are behaving is appropriate and proportionate. • The benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental wellbeing and happiness. • Simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests. • Isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support. • Bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing. • Where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else’s mental wellbeing or ability to control their emotions (including issues arising online). • It is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.
<p>Internet safety and harms</p>	<ul style="list-style-type: none"> • For most people the internet is an integral part of life and has many benefits. • About the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others’ mental and physical wellbeing. • How to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private. • Why social media, some computer games and online gaming, for example, are age restricted. • The internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. • How to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted. • Where and how to report concerns and get support with issues online
<p>Physical Health and Fitness</p>	<ul style="list-style-type: none"> • The characteristics and mental and physical benefits of an active lifestyle. • The importance of building regular exercise into daily and weekly routines and how to achieve this; for example walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise. • The risks associated with an inactive lifestyle (including obesity). • How and when to seek support including which adults to speak to in school if they are worried about their health.
<p>Healthy Eating</p>	<ul style="list-style-type: none"> • What constitutes a healthy diet (including understanding calories and other nutritional content). • The principles of planning and preparing a range of healthy meals. • The characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).
<p>Drugs alcohol and tobacco</p>	<ul style="list-style-type: none"> • The facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

Health and Prevention	<ul style="list-style-type: none"> • How to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body. • About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer. • The importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn. • About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist. • About personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing. • The facts and science relating to allergies, immunisation and vaccination.
Basic First Aid	<ul style="list-style-type: none"> • How to make a clear and efficient call to emergency services if necessary. • Concepts of basic first-aid, for example dealing with common injuries, including head injuries.
Changing adolescent body	<ul style="list-style-type: none"> • Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11 including physical and emotional changes. • About menstrual wellbeing including the key facts about the menstrual cycle.

Delivery

Relationships and Health Education is taught throughout the whole school curriculum. This includes within the Personal, Social, Health Education (PSHE) curriculum, science curriculum, Physical Education (PE), computing and some aspects are included in religious education (RE). (Please see appendix 3 for coverage of the statutory content across the school's curriculum.)

Pupils will mainly be taught in their class groups. Single gender lessons will be used as deemed appropriate by the school e.g. about the changing body. It is important to note that although separated groups may have different activities, the messages and information they receive will be consistent. It is important that children learn about all changes not just their own.

Through effective organisation and delivery of the subject, we will ensure that:

- Core knowledge is sectioned into units of manageable size.
- The required content is communicated to pupils clearly, in a carefully sequenced way, within a planned scheme of work.
- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge so that it can be used confidently in real-life situations.

In addition, teachers will:

- Deliver a high-quality and age-appropriate relationships and health curriculum in line with school and statutory requirements.
- Use a variety of teaching methods and resources to provide an engaging curriculum that meets the needs of all pupils including those with special educational needs and/or disabilities.
- Ensure they do not express personal views or beliefs when delivering the programme.
- Model positive attitudes to relationships and health education.
- Respond to any safeguarding concerns in line with the Child Protection and Safeguarding Policy.

Questions

Teachers will attempt to answer pupils' questions and concerns in a sensitive, age and development appropriate manner. Individual teachers will use skill and discretion in these situations and refer to Relationships and Health Education Lead.

Teachers will apply the following principles:

- Clear ground rules will be established and set out for each session.
- Pupil questions will be encouraged and opportunities to ask questions openly and in private e.g. post it notes/question boxes will be provided.
- Clarity about the topics being taught will be shared with pupils.
- If a child's question is not appropriate to answer in front of the class, the teacher will explain calmly that this is not part of today's discussion and will discuss later.
- Individual questions may be answered by the teacher at the end of the session.
- Some questions may be referred to the child's parents to provide an answer; in these circumstances the class teacher will make contact.

All staff members at the school will undergo training on a yearly basis to ensure they are up-to-date with the relationship and health education programme and associated issues.

Members of staff responsible for teaching the subjects will undergo further training led by the relationships, sex and health education subject leader, to ensure they are fully equipped to teach the subjects effectively.

Training of staff will also be scheduled around any updated guidance on the programme and any new developments, which may need to be addressed in relation to the programme.

Equality and accessibility

The school creates a safe environment where all staff and children are respected and free to express their beliefs and opinions without fear of discrimination. The school understands its responsibilities in relation to the Equality Act 2010, specifically that it must not unlawfully discriminate against:

- Women/girls and men/boys
- People of different races
- People with a disability
- People with different religions or beliefs or with no religion or belief
- People of different ages
- Lesbian, gay and bisexual and straight people
- People who have changed their sex or are in the process of transitioning

The school is committed to making reasonable adjustments wherever possible to promote accessibility and inclusivity of the curriculum. The school understands that pupils with SEND or other needs (such as those with social, emotional or mental health needs) are entitled to learn about relationships and health education, and the programme will be designed to be inclusive of all pupils. This will be reviewed on a case-by-case basis and discussed with the parent/carer where necessary.

Teachers will understand that they may need to be more explicit and adapt their planning of work and teaching methods in order to appropriately deliver the programme to pupils with SEND or other needs.

The curriculum will be taught within the context of family life, taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include a mum and a dad, blended families (step/half siblings) single parent families, LGBTQ+ parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

Provisions under the Equality Act 2010 allow our school to take positive action, where it can be evidenced to be proportionate, to respond to particular disadvantages affecting a group because of a protected characteristic. When deciding whether support is necessary to support pupils with a particular protected characteristic, we will consider our pupils' needs, including the gender and age range of our pupils.

We will encourage children to be respectful of the differences between boys and girls, but we will also be careful of assuming that boys and girls have distinct characteristics which can lead to negative stereotyping. For example, we will discourage negative characterisation of gender such as "boys don't cry", or "girls shouldn't play football" and dispel any manifestations of discrimination from an early age. In order to foster healthy and respectful peer-to-peer communication and behaviour between boys and girls, the school implements a robust Behaviour Policy, which set out expectations of pupils.

Sex education

All pupils must be taught the aspects of sex education outlined in the primary science curriculum – which includes teaching about the main external parts of the human body, how the human body changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals.

The school is free to determine whether pupils should be taught sex education beyond what is required of the national curriculum. At our school, we **do** teach pupils sex education beyond what is required of the science curriculum including pressures / risks, making informed choices, human reproduction, pregnancy and birth, keeping 'secrets' and valuing myself (see curriculum overview in Appendix 4). A wide range of teaching methods are used, that enable pupils to actively participate in their own learning. This includes use of quizzes, case studies, research, role-play, video, small group discussion and use of appropriate guest speakers. Where it is regarded as particularly beneficial, pupils are divided into single gender groups for part of lessons or whole lessons. It is desirable that the class teacher and the TA or a member of staff well known to the children lead the sessions. If the teacher is absent it should not be undertaken by a short-term supply teacher.

In line with our school's safeguarding policy, if a child is at risk of sexual harm, additional actions will be taken to ensure children have the knowledge and skills to keep themselves and others safe.

Parents' right to withdraw

Parents **do not** have the right to withdraw their children from relationships education or the programme of study as part of the requirements of the science curriculum. The school will continue to teach the science curriculum as set out in the National Curriculum (see appendix 4 for objectives taught and terminology used). The changing of the adolescent body topics will be taught in mixed sex groups. Parents have a legal right to withdraw their children from dedicated 'sex education' lessons however we advise asking to see the teaching material before doing so.

Monitoring and review

This policy will be reviewed on an annual basis by the *relationships health education subject lead*, Headteacher and governors. The next scheduled review date for this policy is **Sept 2024**

This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing.

The governing board is responsible for approving this policy.

Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils by newsletters and the school website.

- Derby City Council Education Officer
- Representatives from:
 - The Muslim faith
 - The Sikh faith
 - Church of England
 - Methodist
 - Virtual School
 - Derbyshire LGBT+

Appendix 2 How Markeaton Primary School consults with parents in the development and delivery of the curriculum:

Our school understands the important role parents play in enhancing their children's understanding of relationships and health. Parents' views are important in shaping the curriculum.

Our school works closely with parents by establishing open communication – all parents are consulted in the development and delivery of the curriculum through yearly surveys, letters and information on the school website.

Parents are provided with the following information:

- The content of the relationships and health curriculum
- The delivery of the relationships and health curriculum, including what is taught in each year group
- The legalities surrounding withdrawing their child from the subjects
- The resources that will be used to support the curriculum

Our school aims to build positive relationships with parents and invited them into school to discuss what will be taught, address any concerns and help parents in managing conversations with their children on the issues covered by the curriculum.

Parents are consulted in the review of the curriculum and this policy, and are encouraged to provide their views at any time verbally or written. This can be facilitated via:

- Initial parent consultation survey prior to publishing (Online due to Covid-19)
- Questionnaire
- Email admin@markeaton.derby.sch.uk
- Telephone [01332 347 374](tel:01332347374)
- Termly Parent Pop-ins
- Requested meetings with the Headteacher, Inclusion Leader and/or PHSE Leader

Y1: Statutory Requirements:

- Describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets).
- Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.

Notes and guidance (non-statutory):

Pupils should use the local environment throughout the year to explore and answer questions about animals in their habitat. They should understand how to take care of animals taken from their local environment and the need to return them safely after study. Pupils should become familiar with the common names of some fish, amphibians, reptiles, birds and mammals, including those that are kept as pets.

Pupils should have plenty of opportunities to learn the names of the main body parts (including head, neck, arms, elbows, legs, knees, face, ears, eyes, hair, mouth, teeth) through games, actions, songs and rhymes.

Pupils might work scientifically by: using their observations to compare and contrast animals at first hand or through videos and photographs, describing how they identify and group them; grouping animals according to what they eat; and using their senses to compare different textures, sounds and smells.

Y2: Statutory Requirements:

- Notice that animals, including humans, have offspring which grow into adults.

Notes and guidance (non-statutory):

Pupils should be introduced to the basic needs of animals for survival, as well as the importance of exercise and nutrition for humans. They should also be introduced to the processes of reproduction and growth in animals. The focus at this stage should be on questions that help pupils recognise growth; they should not be expected to understand how reproduction occurs.

The following examples might be used: egg, chick, chicken; egg, caterpillar, pupa, butterfly; spawn, tadpole, frog; lamb, sheep. Growing into adults can include reference to baby, toddler, child, teenager, adult.

Pupils might work scientifically by: observing, through video or first-hand observation and measurement, how different animals, including humans, grow; asking questions about what things animals need for survival and what humans need to stay healthy; and suggesting ways to find answers to their questions.

Y3&4 – nothing linked

Y5: Statutory Requirements:

- Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.
- Describe the life process of reproduction in some plants and animals.
- Find out about different types of reproduction, including sexual and asexual reproduction in plants, and sexual reproduction in animals.
- Describe the changes as humans develop to old age.

Notes and guidance (non-statutory):

Pupils should draw a timeline to indicate stages in growth and development of humans. They should learn about the changes experienced in puberty.

Pupils could work scientifically by researching the gestation periods of other animals and comparing them with humans; by finding out and recording the length and mass of a baby as it grows.

Y6:

Statutory Requirements:

- How to keep their bodies healthy and how their bodies might be damaged- including how some drugs and other substances can be harmful to the human body.

How Markeaton Primary School covers the statutory content of relationships and health education across the school's curriculum

FS2-Y6 PSHE/RSE overview (25mins per week)

Three main themes: Health and Wellbeing, Relationships and Living in the Wider World.

Year	Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
FS2: Jigsaw	Being Me	Celebrating Me	Healthy Me	Changing Me	Relationships	Dreams and Goals

Year 1

Module			
Being Healthy	Year 1/2	Year 3/4	Year 5/6
Relationships	Year 1/2	Year 3/4	Year 5/6
Exploring Emotions	Year 1/2	Year 3/4	Year 5/6
Difference and Diversity	Year 1/2	Year 3/4	Year 5/6
Being Responsible	Year 1/2	Year 3/4	Year 5/6
Bullying Matters	Year 1/2	Year 3/4	Year 5/6

Year 2

Module			
Drug Education	Year 1/2	Year 3/4	Year 5/6
Growing Up	Year 1/2	Year 3/4	Year 5/6
Changes	Year 1/2	Year 3/4	Year 5/6
Being Me	Year 1/2	Year 3/4	Year 5/6
Money Matters	Year 1/2	Year 3/4	Year 5/6
Being Safe	Year 1/2	Year 3/4	Year 5/6

Note: Year 5/6 complete PSHE in a different order than below due to the arrangement of Topic in hopes to achieve a cohesive curriculum. However, all modules and objectives are still covered. Ask to see specific overview if needed.

***The PANTS Rule will be taught during topic time annually for Y1 and Y2.**

Growing up content will cover: The process of growing from young to old, exploring growing and changing and becoming independent, the correct names for the main parts of the body (including external genitalia), identifying people who they can ask for help and think about how they might do that, identifying ways of keeping safe and knowing they do not keep secrets, privacy in different contexts, respecting the needs of ourselves and other people, identifying similarities and difference, what physical contact is acceptable, that everybody is unique.

****Puberty including menstruation will be taught during Y4 topic time for one week annually.**

Growing up content will cover: That images in the media do not always reflect reality, celebrating our strengths/qualities, the kinds of changes that happen in life and the associated feelings, that simple hygiene routine can prevent the spread of bacteria, changes that happen as they grow up including menstruation, the right to protect our bodies, differences and similarities between people, understanding everyone is equal, the difference between acceptable and unacceptable physical contact, knowing the names of the body parts and recognising and challenging stereotypes.

*****Puberty and sex education will be taught during Y5/Y6 topic time for one week biennially.**

Growing up content will cover: Exploring how images in the media and online do not always reflect reality, identifying the intensity of feelings, recognising conflicting feelings, that simple hygiene routine can prevent the spread of bacteria, identifying pressures and influences, understanding changes that happen at puberty, understanding what puberty and human reproduction, knowing what sexual intercourse is and safety around this, identifying qualities of a healthy relationship, committed loving relationships including LGBTQ+, about differences and similarities between people, understanding everyone is equal and debate topical issues.

Being Me in My World	Celebrating Me	Dreams and Goals
Learning Intentions	Learning Intentions	Learning Intentions
I understand how it feels to belong and that we are similar and different	I can identify something I am good at and understand everyone is good at different things	I understand that if I persevere I can tackle challenges
I can start to recognise and manage my feelings	I understand that being different makes us all special	I can tell you about a time I didn't give up until I achieved my goal
I enjoy working with others to make school a good place to be	I know we are all different but the same in some ways	I can set a goal and work towards it
I understand why it is good to be kind and use gentle hands	I can tell you why I think my home is special to me	I can use kind words to encourage people
I am starting to understand children's rights and this means we should all be allowed to learn and play	I can tell you how to be a kind friend	I understand the link between what I learn now and the job I might like to do when I'm older
I am learning what being responsible means	I know which words to use to stand up for myself when someone says or does something unkind	I can say how I feel when I achieve a goal and know what it means to feel proud
Healthy Me	Relationships	Changing Me
Learning Intentions	Learning Intentions	Learning Intentions
I understand that I need to exercise to keep my body healthy	I can identify some of the jobs I do in my family and how I feel like I belong	I can name parts of the body
I understand how moving and resting are good for my body	I know how to make friends to stop myself from feeling lonely	I can tell you some things I can do and foods I can eat to be healthy
I know which foods are healthy and not so healthy and can make healthy eating choices	I can think of ways to solve problems and stay friends	I understand that we all grow from babies to adults
I know how to help myself go to sleep and understand why sleep is good for me	I am starting to understand the impact of using unkind words	I can express how I feel about moving to Year 1
I can wash my hands thoroughly and understand why this is important especially before I eat and after I go to the toilet	I can use Calm Me time to manage my feelings	I can talk about my worries and/or the things I am looking forward to about being in Year 1
I know what a stranger is and how to stay safe if a stranger approaches me	I know how to be a good friend	I can share my memories of the best bits of this year in Reception

Health and Wellbeing	Relationships	Living in the Wider World
Learning Outcomes	Learning Outcomes	Learning Outcomes
Can explain what keeps them healthy (H1)	Can communicate their feelings to others (R1)	Can demonstrate how we can care for one other (L1)
Can make simple choices about their health and wellbeing (H2)	Can recognise that their behaviour can affect other people (R2)	Can contribute to the life of the classroom and school (L1)
Can recognise what they like and dislike (H2)	Can recognise the difference between secrets and nice surprises (R3)	Can follow classroom and school rules (L2)
Can set themselves simple goals (H3)	Can recognise what is fair and unfair (R4)	Can demonstrate how to be responsible (L3)
Can express some of their positive qualities (H3)	Can begin to share their views and opinions (R5)	Can explain which groups they belong to, such as family and school (L4)
Can name and identify a range of feelings (H4)	Can actively listen to other people and instructions (R6)	Can explain how we can care for animals (L5)
Can develop simple strategies to manage some feelings (H4, H5)	Can work cooperatively with others (R6, R7)	Can identify ways to respect our local environment (L5)
Can explain ways of keeping clean (H6)	Can Identify the differences and similarities in people (R8)	Can identify where money comes from and what influences how we spend it (L6, L7)
Can use skills developed to help prevent diseases spreading (H7)	Can identify what makes them special (R9)	Can express why they are unique (L8)
Can explain some changes that happen from young to old (H8, H9)	Can recognise what kind of physical contact is acceptable/ unacceptable and how to respond appropriately (R10)	Can explain ways in which we are the same as all other people (L9)
Can name main parts of the body including external genitalia (H10)	Can recognise people's bodies and feelings can be hurt (R11)	Can identify what to do in an emergency (L10)
Can talk about the harmful aspects of some household products/medicines (H11)	Can be kind to others (R12)	
Can describe ways of keeping safe in different situations (H12)	Can recognise different types of bullying and why it is wrong (R13)	
Can explain different ways that family and friends should care for one another (H13)	Can Identify who to go to if they need help with their worries (R14)	
Can identify that they do not need to keep secrets and explain why (H14, H15)		
Can recognise what is meant by privacy for themselves and others (H16)		

Health and Wellbeing	Relationships	Living in the Wider World
Learning Outcomes	Learning Outcomes	Learning Outcomes
Can identify what affects their physical and mental health (H1, H12)	Can communicate their feelings to others (R1)	Can take part in a debate or topical issue and confidently share their point of view (L1)
Can understand what a balanced diet includes (H2)	Can identify skills to maintain and form good relationships (R2)	Can explain why rules and laws are needed in different situations (L2)
Can recognise what might influence our choices to have a 'balanced lifestyle' (H3, H16)	Can identify the difference between a healthy and unhealthy relationship (R2, R3)	Can identify that people have basic human rights and they are there to protect everyone (L3, L4, L5)
Can identify how images in the media don't always reflect reality (H4, L7, L18)	Can recognise different types of relationships (R4, R5, R6, R19)	Can identify consequences of aggressive and harmful behaviours (L6)
Can identify their strengths and identify areas for improvement (H5)	Can understand that their actions affect themselves and others (R7)	Can explain strategies for getting support for themselves and others at risk (L6)

Below is the online safety overview of teaching which will be taught at the beginning of each half term:

Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Online reputation (Including your digital footprint)	Health, wellbeing and lifestyle	Online relationships and online bullying	Self-image and identity	Privacy and security, copyright and ownership	Managing online information
It explores the concept of reputation and how others may use online information to make judgements. It offers opportunities to develop strategies to manage personal digital content effectively and capitalise on technology's capacity to create effective positive profiles.	This strand explores the impact that technology has on health, wellbeing and lifestyle. It also includes understanding negative behaviours and issues amplified and sustained by online technologies and the strategies for dealing with them.	This strand explores how technology shapes communication styles and identifies strategies for positive relationships in online communities. It offers opportunities to discuss relationships and behaviours that may lead to harm and how positive online interaction can empower and amplify voice. This strand explores bullying and other online aggression and how technology impacts those issues. It offers strategies for effective reporting and intervention and considers how bullying and other aggressive behavior relates to legislation.	This strand explores the differences between online and offline identity beginning with self-awareness, shaping online identities and how media impacts on gender and stereotypes. It identifies effective routes for reporting and support and explores the impact of online technologies on self-image and behaviour.	This strand explores how personal online information can be used, stored, processed and shared. It offers both behavioural and technical strategies to limit impact on privacy and protect data and systems against compromise. It explores strategies for protecting personal content and crediting the rights of others as well as addressing potential consequences of illegal access, download and distribution.	This strand explores how online information is found, viewed and interpreted. It offers strategies for effective searching, critical evaluation and ethical publishing. It supports children in understanding and discerning between what is real and what is fake, knowing what phishing scams are as well as understanding ways of spotting false information.
