

Weekly Word

14.5.2021

To all Parents/Carers,

More Maths, more Outdoor Learning and more of our Recovery Curriculum in action above! And your eyes don't deceive you, that is an enormous egg in the Forest School area which was discovered by our Y5 children – leading to some amazing writing!

I was saying to Governors last night that every time I look out my window there is some kind of outdoor learning taking place. I love going out with my Y3 group on a Tuesday as well, yesterday we made hedgehog houses in the pond area whilst the Y1s (above left) were doing times tables with natural materials.

In other news, we hope all our families celebrating Eid ul Fitr had a great time with their families yesterday! From what I can gather, a lovely time was had by those children I have managed to speak to.

You may have also seen on [Twitter](#) that the Local Authority have launched a competition to design a bin. It's open to all children and the details are on the link above.

And finally, Mrs Alvey, Our Communications Support Worker in Y6 has left to start a new job.

We thank her for all her hard work over the years and wish her all the best in the future.

Ourfuture Designer Bin Competition

Parents and Carers Guide

Our Future Derby have launched a competition in partnership with Engineered Learning Ltd open to all primary school children in Derby. The Our Future Derby programme aims to raise the aspirations of Derby's children and this term we have been focussing on careers in waste, recycling and the environment.

Have a lovely weekend,

Mr I. Johnson
