

Weekly Word

25.3.2022

To all Parents/Carers,

I'll start with three thank yous this week! The first one is for sending your child in with crazy hair today! I've seen all sorts this morning; lizards in hair, plant pots in hair, green hair, purple hair and hair which, quite frankly, requires a risk assessment it has so much gel in it!!

The next thank you is for attending the parent pop ins in such high numbers. The children were really proud of their work and it was great to see them talking about it so animatedly.

And the last thank you (for this week anyway!) is for engaging with the Big Wheel and Walk so positively since Monday. We currently sit 2nd In Derby City and in the top 25% schools nationally. There is one more week to go so let's see how high up the leaderboard we can get.

By my calculations, if we can get an extra 40ish children walking, scooting or cycling to school (or doing physical activity at home if they are remote learning) then we will scorch into the top 50 – definitely a target worth aiming for!

Learning this week (lots of it being outdoors due to the warm weather!) has included: Viking Day (see middle left) and using tablets devices to capture good photographs in Y2. On the topic of technology, we have also recently purchased 15 new iPads so that takes us up to 30 now and over 100 tablet devices overall.

In other news, you might have caught glimpse of the new PTFA totaliser (see bottom left) in the playground by the outside sinks. This is there so you can keep an eye on our target for the new year and even donate if you want to using the QR Code. Thank you in advance for your kind donations and let's watch that totaliser climb!

Have a lovely weekend

Mr I. Johnson
