

Weekly Word

30.4.2021

To all Parents/Carers,

All about Maths this week (with a bit of outdoor learning thrown into the equation as well!).

We received some new Maths resources last week and we have been putting them to good use in the classroom and in the forest school area. Due to Covid restrictions we have to be really careful when sharing resources so having this type of lesson represents another small step back to normality – and the kids have loved it!

In other news, we are also looking to offer a range of clubs between now and the end of the Summer Term. They will have to be for just a year group but the full menu of what's available, either at lunch or after school, will be sent out by the office fairly soon e.g. a Y1 Maths club, a Y5 Football club etc etc.

And finally (only a short weekly word this week), we have recently been made aware that certain streets within the SixStreets community might become permit only in the not too distant future. I don't have too many details beyond that but when I do I will let you know. I am sure some of it will be made available through SixStreets on Facebook or the council website. We have also been contacted by the local authority regarding parking outside school and I am awaiting to hear how they would like to get involved regarding possible solutions to congestion.

I have also been asked about staggered start times, as this does contribute to the flow of traffic in the mornings and after school. At the moment we have to keep them as they are but as soon as any new guidance comes out I will let you know. My gut feeling is that the staggered start and end times will be with us till we finish in July.

Have a nice weekend,

Mr I. Johnson
